

## **PARTS LIST**

- |                                 |                                 |
|---------------------------------|---------------------------------|
| 1. DPC636 (1)                   | 14. FMB935 (2)                  |
| 2. 14mm x 120mm 1.5 (1)         | 15. 89007 (2)                   |
| 3. 14mm Thick Flat Washer (1)   | 16. 10mm x 40mm Flange Bolt (2) |
| 4. FSK38 (1)                    | 17. 89203-051 (1)               |
| 5. RMP50A-6 (1)                 | 18. 10mm x 55mm (1)             |
| 6. DMB631 (1)                   | 19. #10 Wire Loom Clamp (2)     |
| 7. 10mm x 130mm (1)             | 20. 6mm x 16mm Flange Bolt (2)  |
| 8. 8mm x 90mm (1)               | 21. 3/8" x 1-1/2" Bolt (2)      |
| 9. 8mm x 45mm (1)               | 22. 3/8" Lock Washer (2)        |
| 10. 10mm Lock Washer (1)        | 23. 3/8" Flat Washer (2)        |
| 11. 8mm Lock Washer (2)         | 24. 3/8" Nut (1)                |
| 12. 10mm x 50mm Flange Bolt (1) | 25. 5060730 Belt (1)            |
| 13. 8mm x 20mm Flange Bolt (2)  | 26. 8mm x 20mm Set Screws (3)   |

Disclaimer: (1.) Due to the custom nature and variation of all add-on systems of this type, no complete system kits are offered by the manufacturer, and any group of parts marketed as a kit is limited to only the individually defined parts in that specific kit. The system designer's rotating accessory components are not included, offered, or fully known by the manufacturer. In addition to the absence of the rotating accessory system, other potential components such as additional clamps, brackets, wear liners, hardware, or other items that may be required by the system designer must be identified and supplied by the actual system designer. (2.) Due to vehicle manufacturer's assembly tolerances, production changes, and installation variances, it is the buyer's responsibility to ensure adequate clearance for all components including space for and safe location of the fan, radiator, all lines, and wires. Check for possible movement, vibration, friction points, heat exposure and/or shifting of any and all components such as hoses, wires, and all other components including those that may otherwise be considered non-moving and/or unaffected by the installation (3.) The buyer is responsible for the entire installation of a mounting kit as the mounting kit as the mounting kit is part of a custom process controlled by the buyer through their whole system design and directed installer as the installer evaluates, locates, routes, aligns, and tightens all components while determining if additional clamps, brackets, wear-liners, or other components may be required, beyond those included in the kit. Any additional items required, beyond those included in the kit, are to be provided at the expense of the buyer. (4.) The buyer is responsible for the development and communication of their whole system installation procedures, safety precautions, application, and use of the engine accessory mounting kit in their system, including efforts to maintain vehicle control and prevent pinch, wear, impact, and/or burn exposure on all hoses, wires, and other parts. (5.) The buyer is responsible for providing trained and experienced installation decision making with technical know-how to apply professional judgment that specifically applies to each individual installation. The buyers chosen installers must be qualified and experienced technicians that are familiar with the vehicle and accessory being mounted as well as the buyer's whole system design and installation procedures associated with the kit. (6.) The buyer is responsible for determining and achieving compliance to all regulatory issues that apply to the use of all products. (7.) The manufacturer reserves the right to make changes and/or improvements to any product at any time with or without notice.
